

FSTL Test Prep List.

“Form 016-In-vehicle Seat Test Request” and “Form 014-FSTL Work Order Packet Cover Page” must be filled out completely. Firm test dates will occur after signed contract is agreed upon and sent to the test lab, drawings of the van with seating positions clearly marked, drawings of the support structure, and detailed hardware descriptions and torque requirements for each seating position. We cannot guarantee a test date until all are received.

Vans dimensions cannot exceed 180” long by 102” wide (the front end can be cut behind the driver’s seat to reduce the length of the vehicle). Vehicles shall have no glass, windshield, dashboard, gas tank, or engine. Vehicles shall be sent ready to test.

All seats are to be pre-ordered at least 4 weeks prior to testing through FSC sales department [Matthew Jobst MatthewJ@freedmanseat.com] and installed by the builder in the buck prior to shipping to FSTL.

Notes:

Seats do not require seatbelts.

Sales Dept. is to ship seats to FSTL for inspection prior to shipping to customer.

FMVSS 207/210 test. Seat assemblies do not require paint, covers, or foam.

FMVSS 225 test. [Child Restraint Seats] Seats are complete Assemblies (paint not required).

Provide a listing of all hardware in the installation of each seat along with torque specifications.

Bucks should be scheduled to arrive at Freedman the Friday before testing begins. Do not send earlier.

After completion of tests, bucks shall be scheduled, by the customer, for return to customer within 1 week.

Shipping Address:

Freedman Seating Test Lab
4544 W Chicago Ave
Chicago, IL 60651
