

# FREEDMAN

## The Angel TRANSIT COLLECTION

*Shown with  
optional  
stainless steel  
grab handles.*

This heavy-duty transit seat incorporates tested strength and durability with function, ergonomics and value. The Angel is made with high quality SMC fiberglass (Pre-Formed construction is also available). This rugged construction means consistent shell thickness, uniform color in the molding process and long life with no maintenance worries. Every Angel comes with the service, value, industry best lead-time, on-time delivery and after-the-sale support that builders, distributors and operators have come to expect from Freedman Seating Company.

*Shown with  
optional  
thermoplastic  
grab handles.*

## TRANSIT COLLECTION

The Freedman Seating Angel is the perfect seat for tough Heavy-Duty Transit applications. From transit to shuttle, the Angel is ideal for buses and rail cars. Its design and construction creates one of the most maintenance free seating solutions in its class! Every Angel comes with the superior service, low price, industry best lead-time, on-time delivery and after-the-sale support that builders, distributors and operators have come to expect from Freedman Seating Company.

### Construction and Features

- The Angel shell is made with high quality SMC fiberglass (Pre-Formed is also available). It is fire-resistant, strong, lightweight and available in a variety of colors
- Individually molded color-coordinated thermo-plastic or stainless steel grab rails
- The Angel's back panel is made from super strong thermoplastic and incorporates our Knee-Saver feature for increased hip-to-knee room.
- Heavy-Duty seat and back inserts can be easily removed for cleaning or replacement with most industry models.
- The "T" leg and/or cantilever frame can be made of powder-coated carbon or stainless steel
- The base frame can be customized to accommodate almost all wall tracks or mounting systems
- The Angel shell is attached to the frame without the use of rivets
- All Angel seat frames are jig welded, powder coated, and made with the highest quality tubing and steel
