

# GEMINI

## Ultra Lightweight Passenger Transit Seats

**Engineered for maximum seating capacity, safety and longevity.**

Gemini passenger seats are constructed with lightweight plastic which meets flame, smoke, and toxicity requirements. Gemini seats give train builders more passenger load capacity and seating options.

### Space Saving Shape

Seat contour provides more hip-to-knee room, added leg room and easier ingress and egress.

### Interchangeable Inserts

Flip-up and fixed seats have identical inserts.

### Grab Rails

Removable

### Hidden Fasteners

### T2C Inserts

Tough-to-cut vandal resistant inserts

### Complete Mounting Package

- Stainless or painted carbon steel pedestals and cantilevers
- Transverse and longitudinal seats
- Transverse and longitudinal flip-up seats
- ADA compliant
