

Vinyl Cleaning Instructions

Our PVC offerings are inherently anti-microbial and anti-fungal to inhibit the growth of bacteria and fungus through regular use. In these unprecedented times, many of our customers are looking to enhance their cleaning regimen to eliminate the spread of COVID-19.

We have outlined our recommended cleaning practices for our PVC offering below. Per the guidance of the Center for Disease Control, a 10% bleach solution is recommended to eliminate the virus. That solution is safe for regular use on our entire PVC collection.

Use one of the following recommended non-abrasive cleaners with a soft cloth or damp sponge.

Rhino

- Formula 409 All-Purpose Spray Cleaner
- Fantastik Spray Cleaner Rinse cleaned area with fresh water then dry with a clean, lint-free cloth
- 10% bleach solution

Primal

- Formula 409 All-Purpose Spray Cleaner
- Fantastik Spray Cleaner Rinse cleaned area with fresh water then dry with a clean, lint-free cloth
- 10% bleach solution

Vita

- Wipe with a damp cloth and warm soapy water
- Improved resistance to alcohol but avoid regular use
- 10% bleach solution
