Installing FileZilla

- 1. Follow this link to https://filezilla-project.org/download.php?type=client
- 2. Select "save this file to disk" option when download window opens.
- Save this file to your desktop.
 *** If you don't have option to choose where to save the download then the file will be located in the computer's downloads folder.
- 4. The download will begin. You may need to click "Close" when the download is complete.
- 5. To install the program, double-click its icon located on the desktop or in the download folder of your computer depending on the location that it was downloaded to.
- 6. Go through the installation process.

Configuring FileZilla

Start the program by going to the Start > All Programs > FileZilla FTP Client >
FileZilla on the bottom left-hand corner of your computer screen.
 *** If you are using Windows 10 then go to the START screen by clicking the icon
on the lower left part of the screen. Now type FileZilla (when you start typing a
search box will open). Now right click on the FileZilla search result and you can
choose to pin it to your start screen or the task bar. Going forward the program will
be available to start from your chosen location. Click the FileZilla icon to start the
program.

Click the FileZilla icon to start the program.
